

# Revolutionizing Golf Cart Management via GPS Solutions

Powering Premier Golf Experiences through DAL Technology

**DAL** IT  
TECHNOLOGY

**DAL** Telematics  
TECHNOLOGY

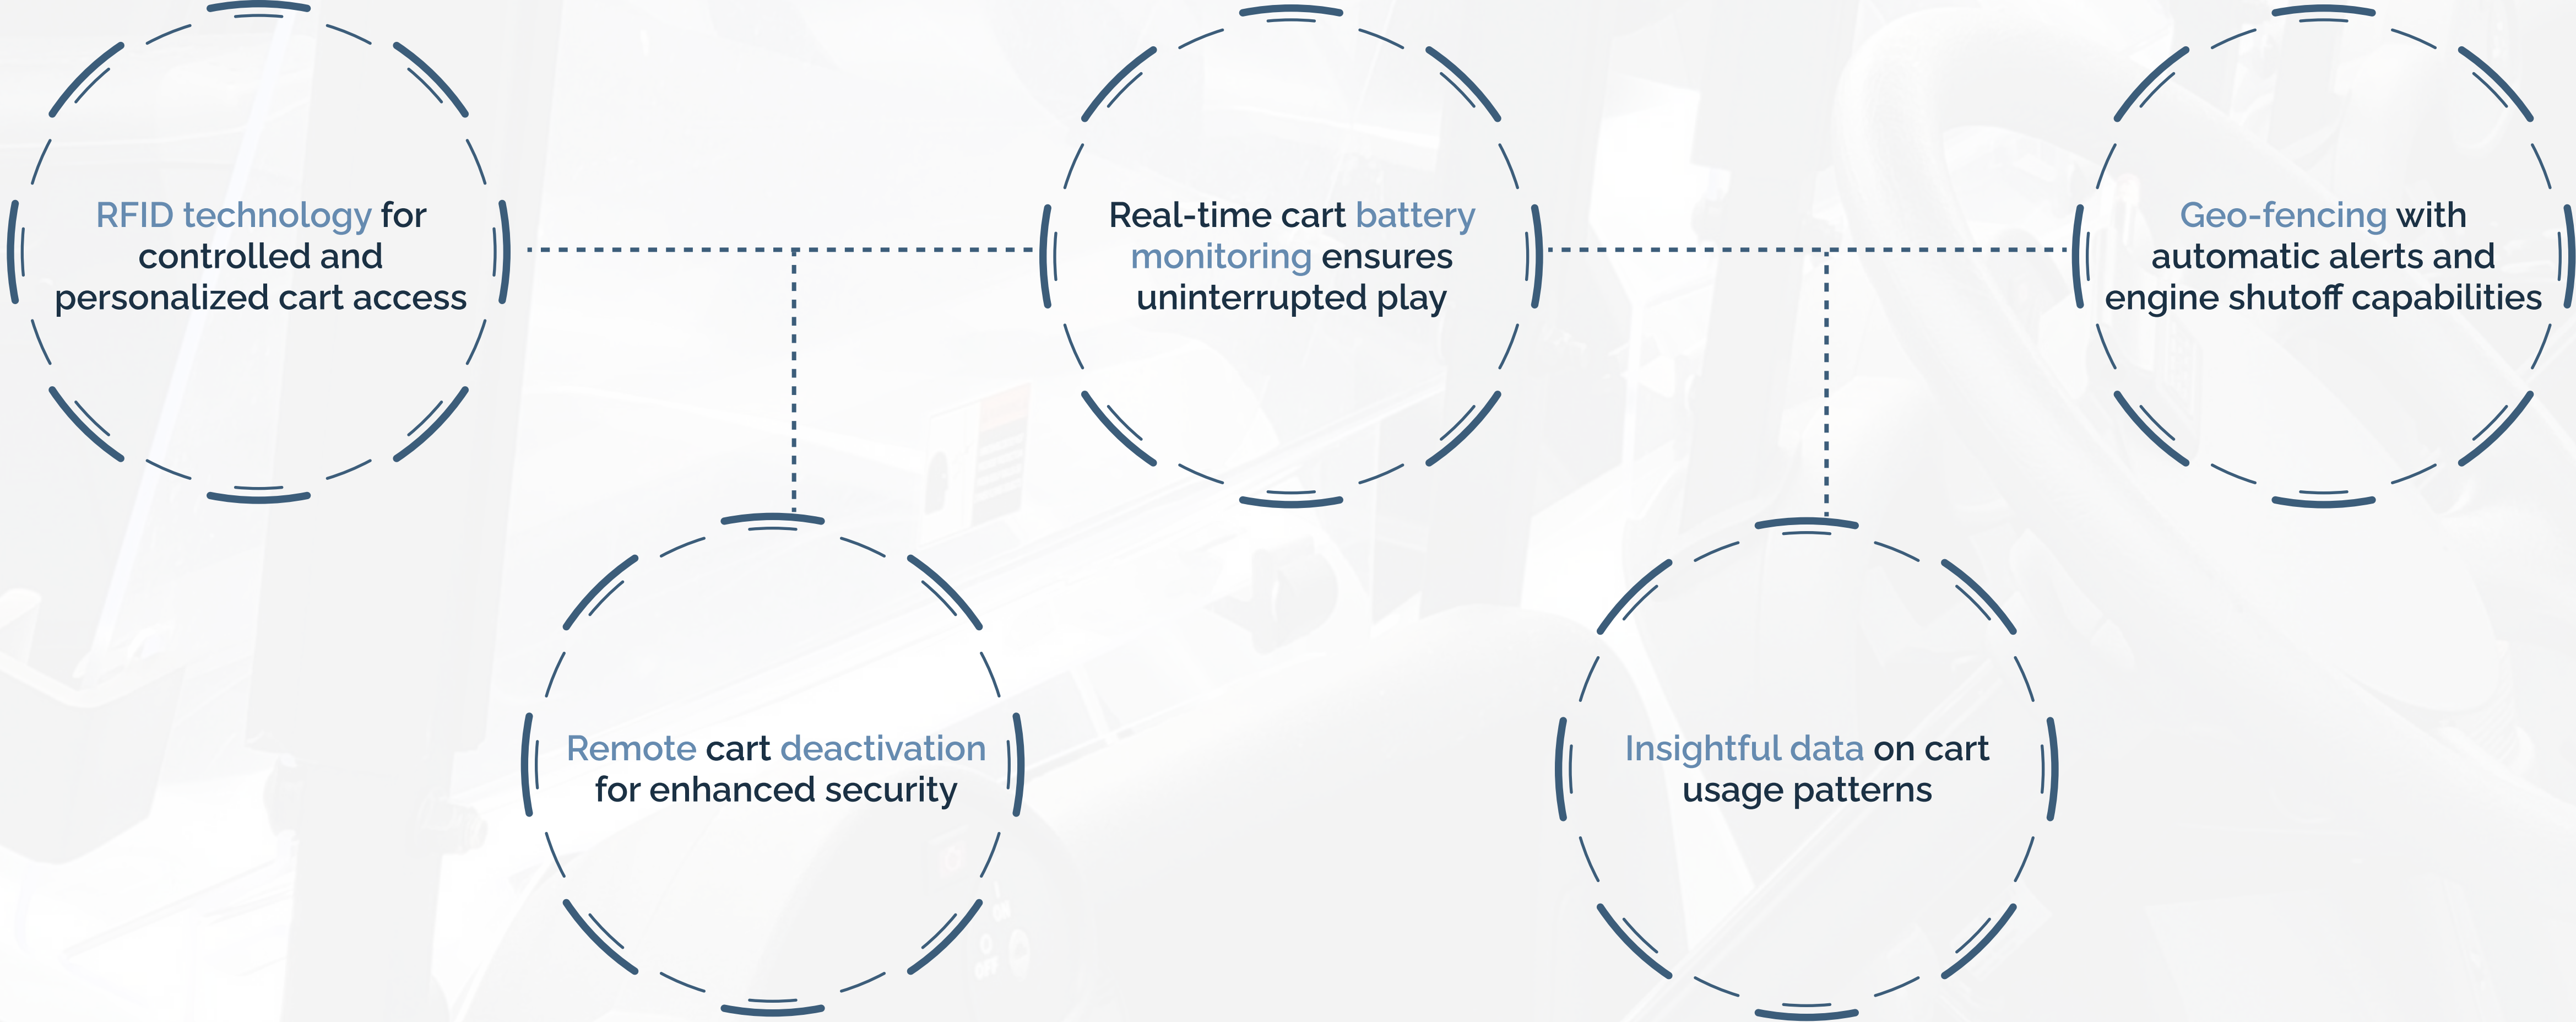

**DAL** iot  
TECHNOLOGY

**DAL** Fintech  
TECHNOLOGY

# Cutting-edge GPS tracking technology for dynamic golf cart management

# Advanced Hardware Capabilities: The Core of Smart Fleet Management

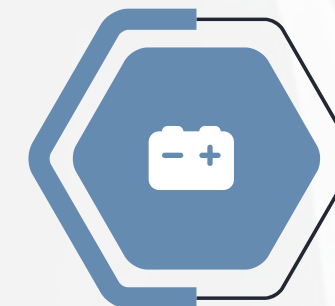

**GPS Tracking**  
up to 15 satellite

**Driver Identification**  
RFID Control System

**Cut-off**  
Engine Cut-off

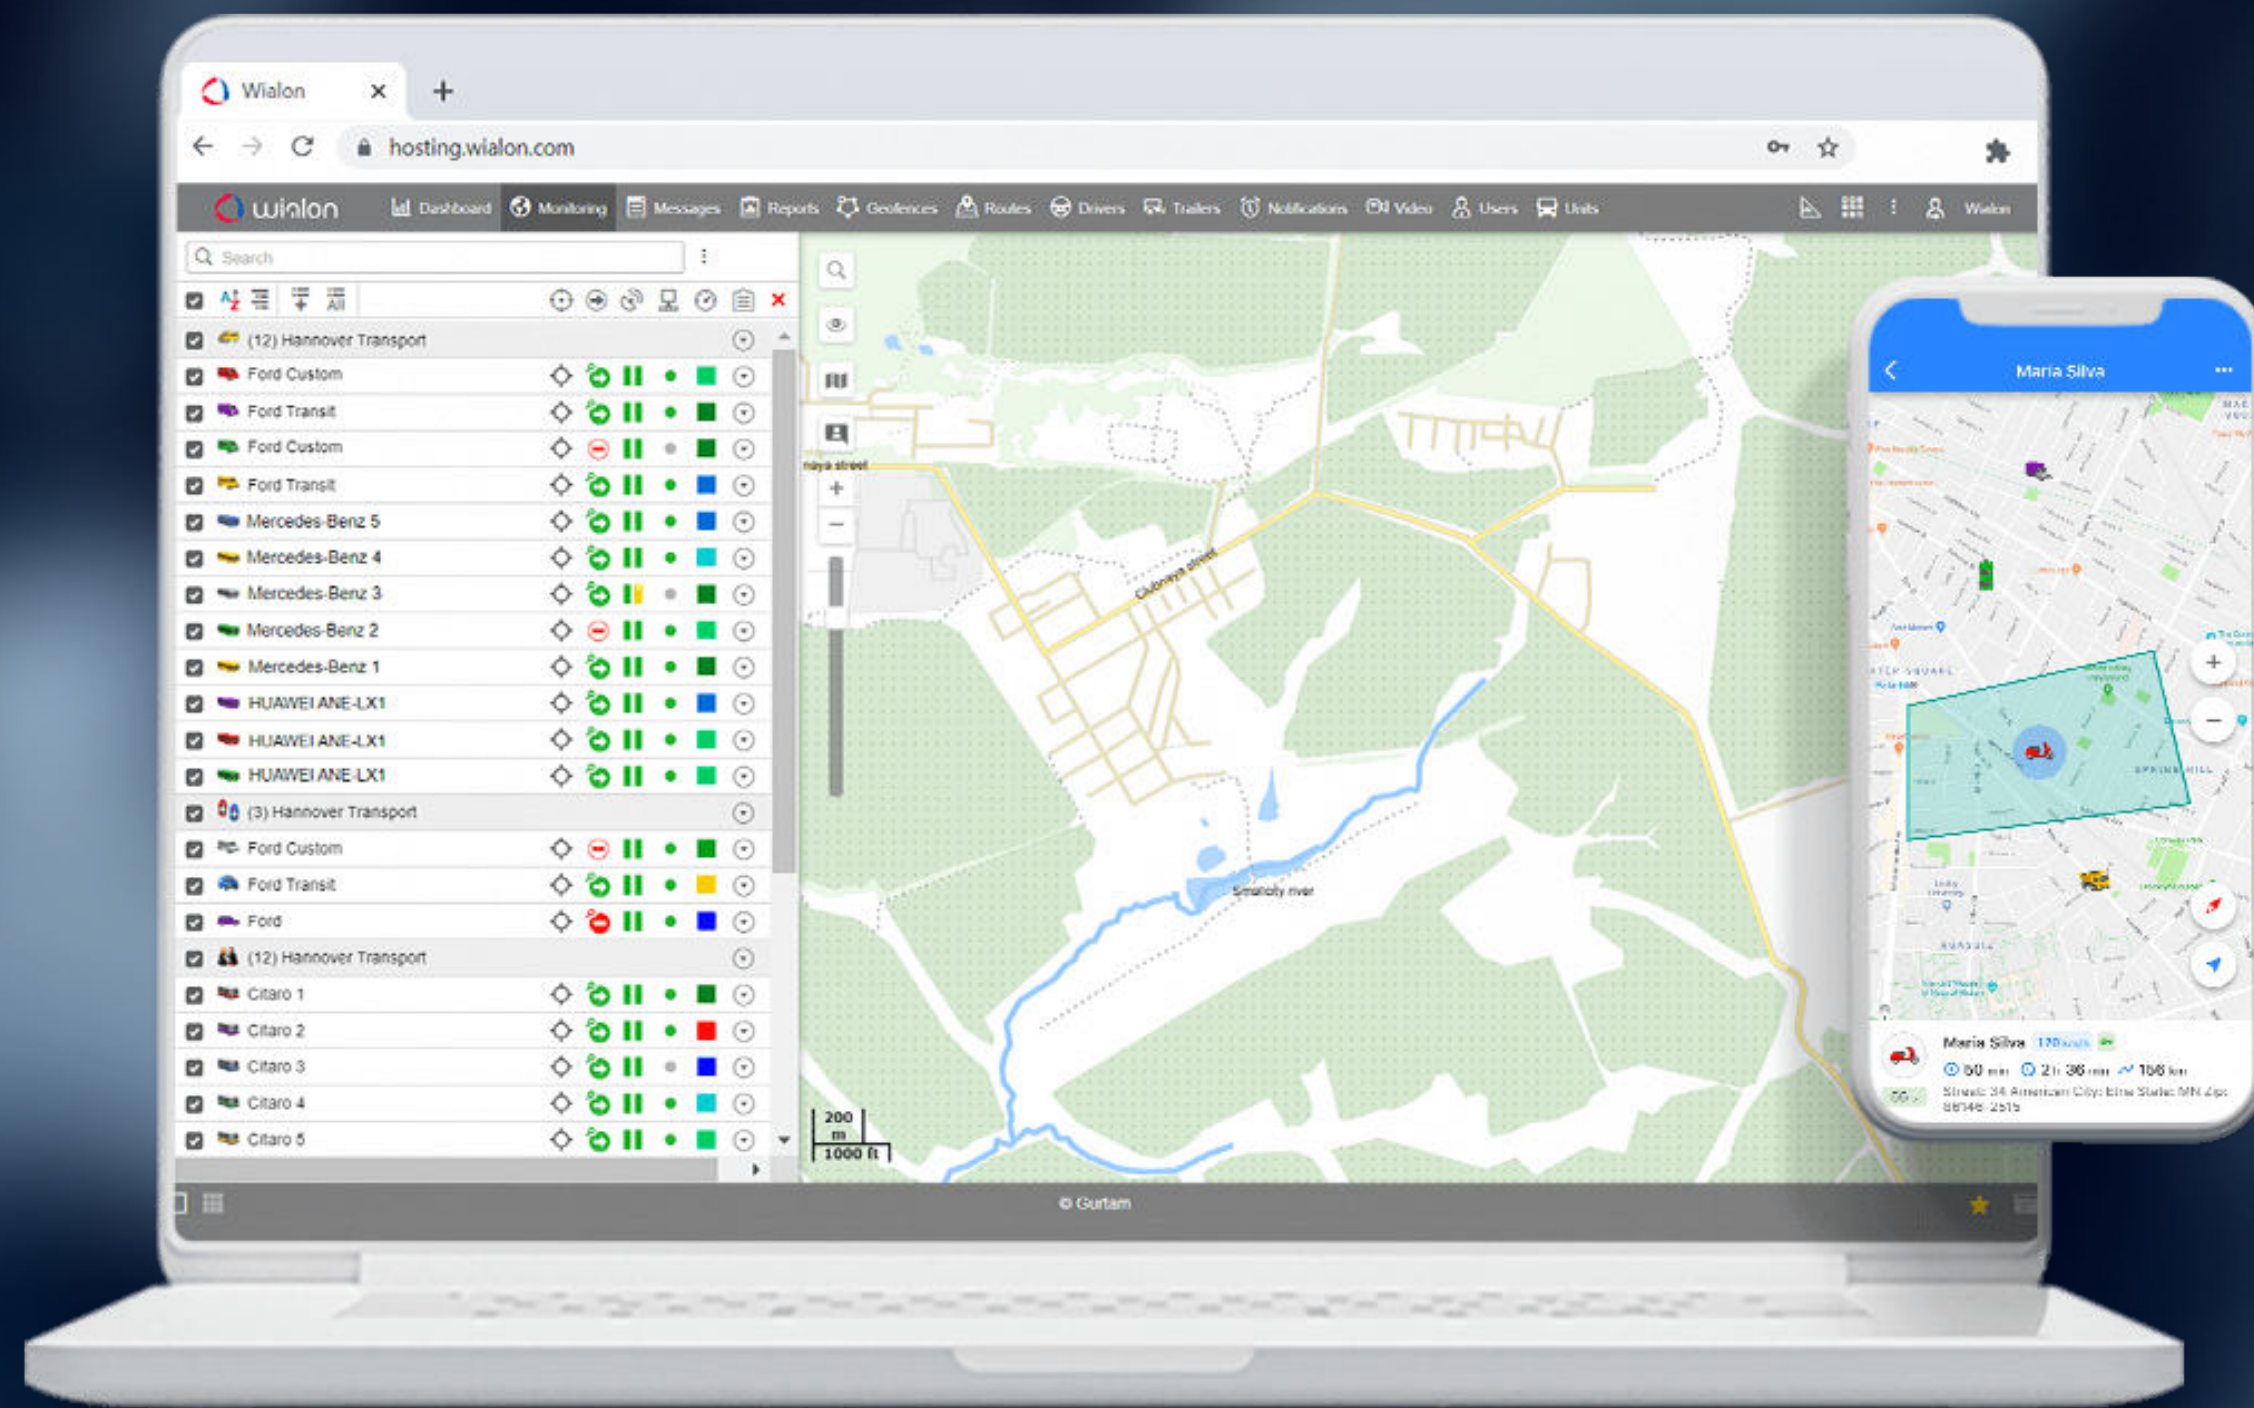

**Battery Consumption Readings**  
Displaying Real-Time Battery Levels

**Reverse Control**  
Geo-fence only reverse mode

## Intelligent Software Suite: Elevating Golf Cart Operations

- Geofencing for Smart Boundaries
- Battery Monitoring Features
- Real-time Location Data and Analysis
- Seamless and Scalable Integration
- Notifications and alerts system
- Comprehensive dashboard
- Driver behavior monitoring

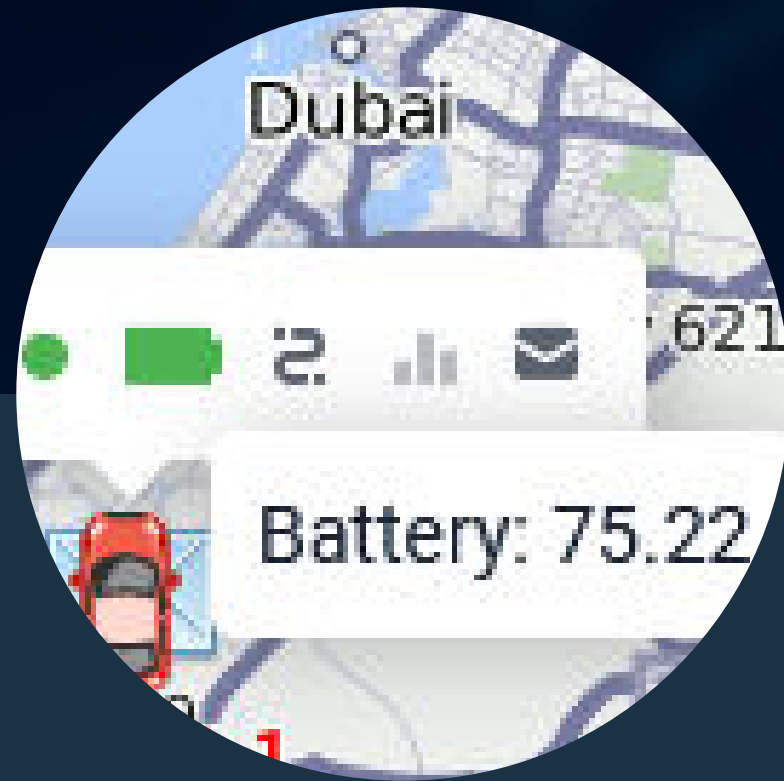

## The Challenges at Golf Courses

- Efficient cart fleet management and maintenance
- Ensuring consistent cart availability and performance
- Preventing unauthorized cart use and loss
- Delivering an exceptional golfing experience

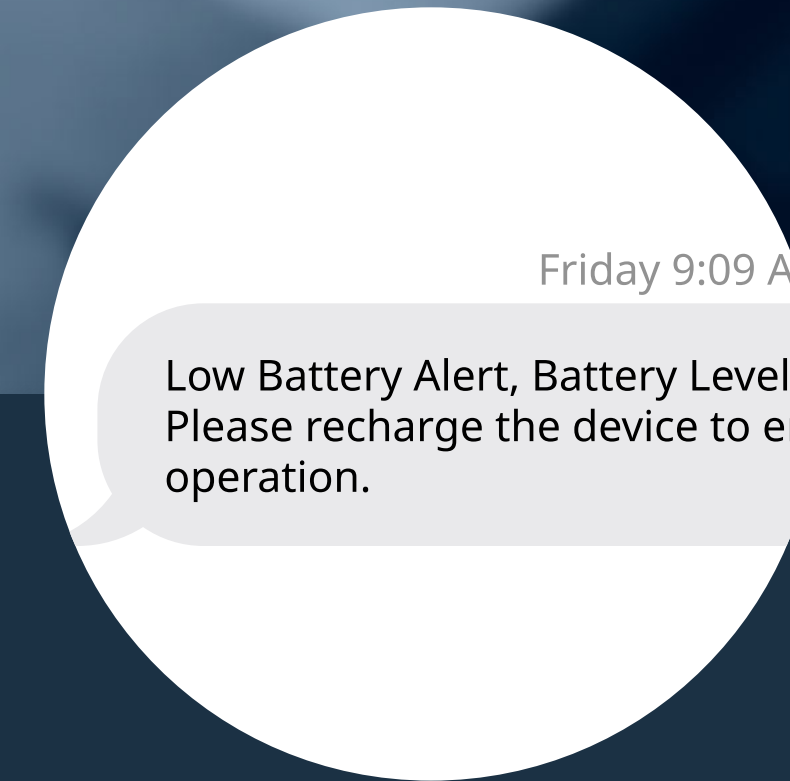

# Battery Consumption Readings

Real-time status updates for proactive battery maintenance

Proactive Battery Monitoring  
for Optimal Performance

Receive Instant Alerts to  
Mitigate Low Battery Downtime

Visualize Battery Trends for  
Informed Decision-Making

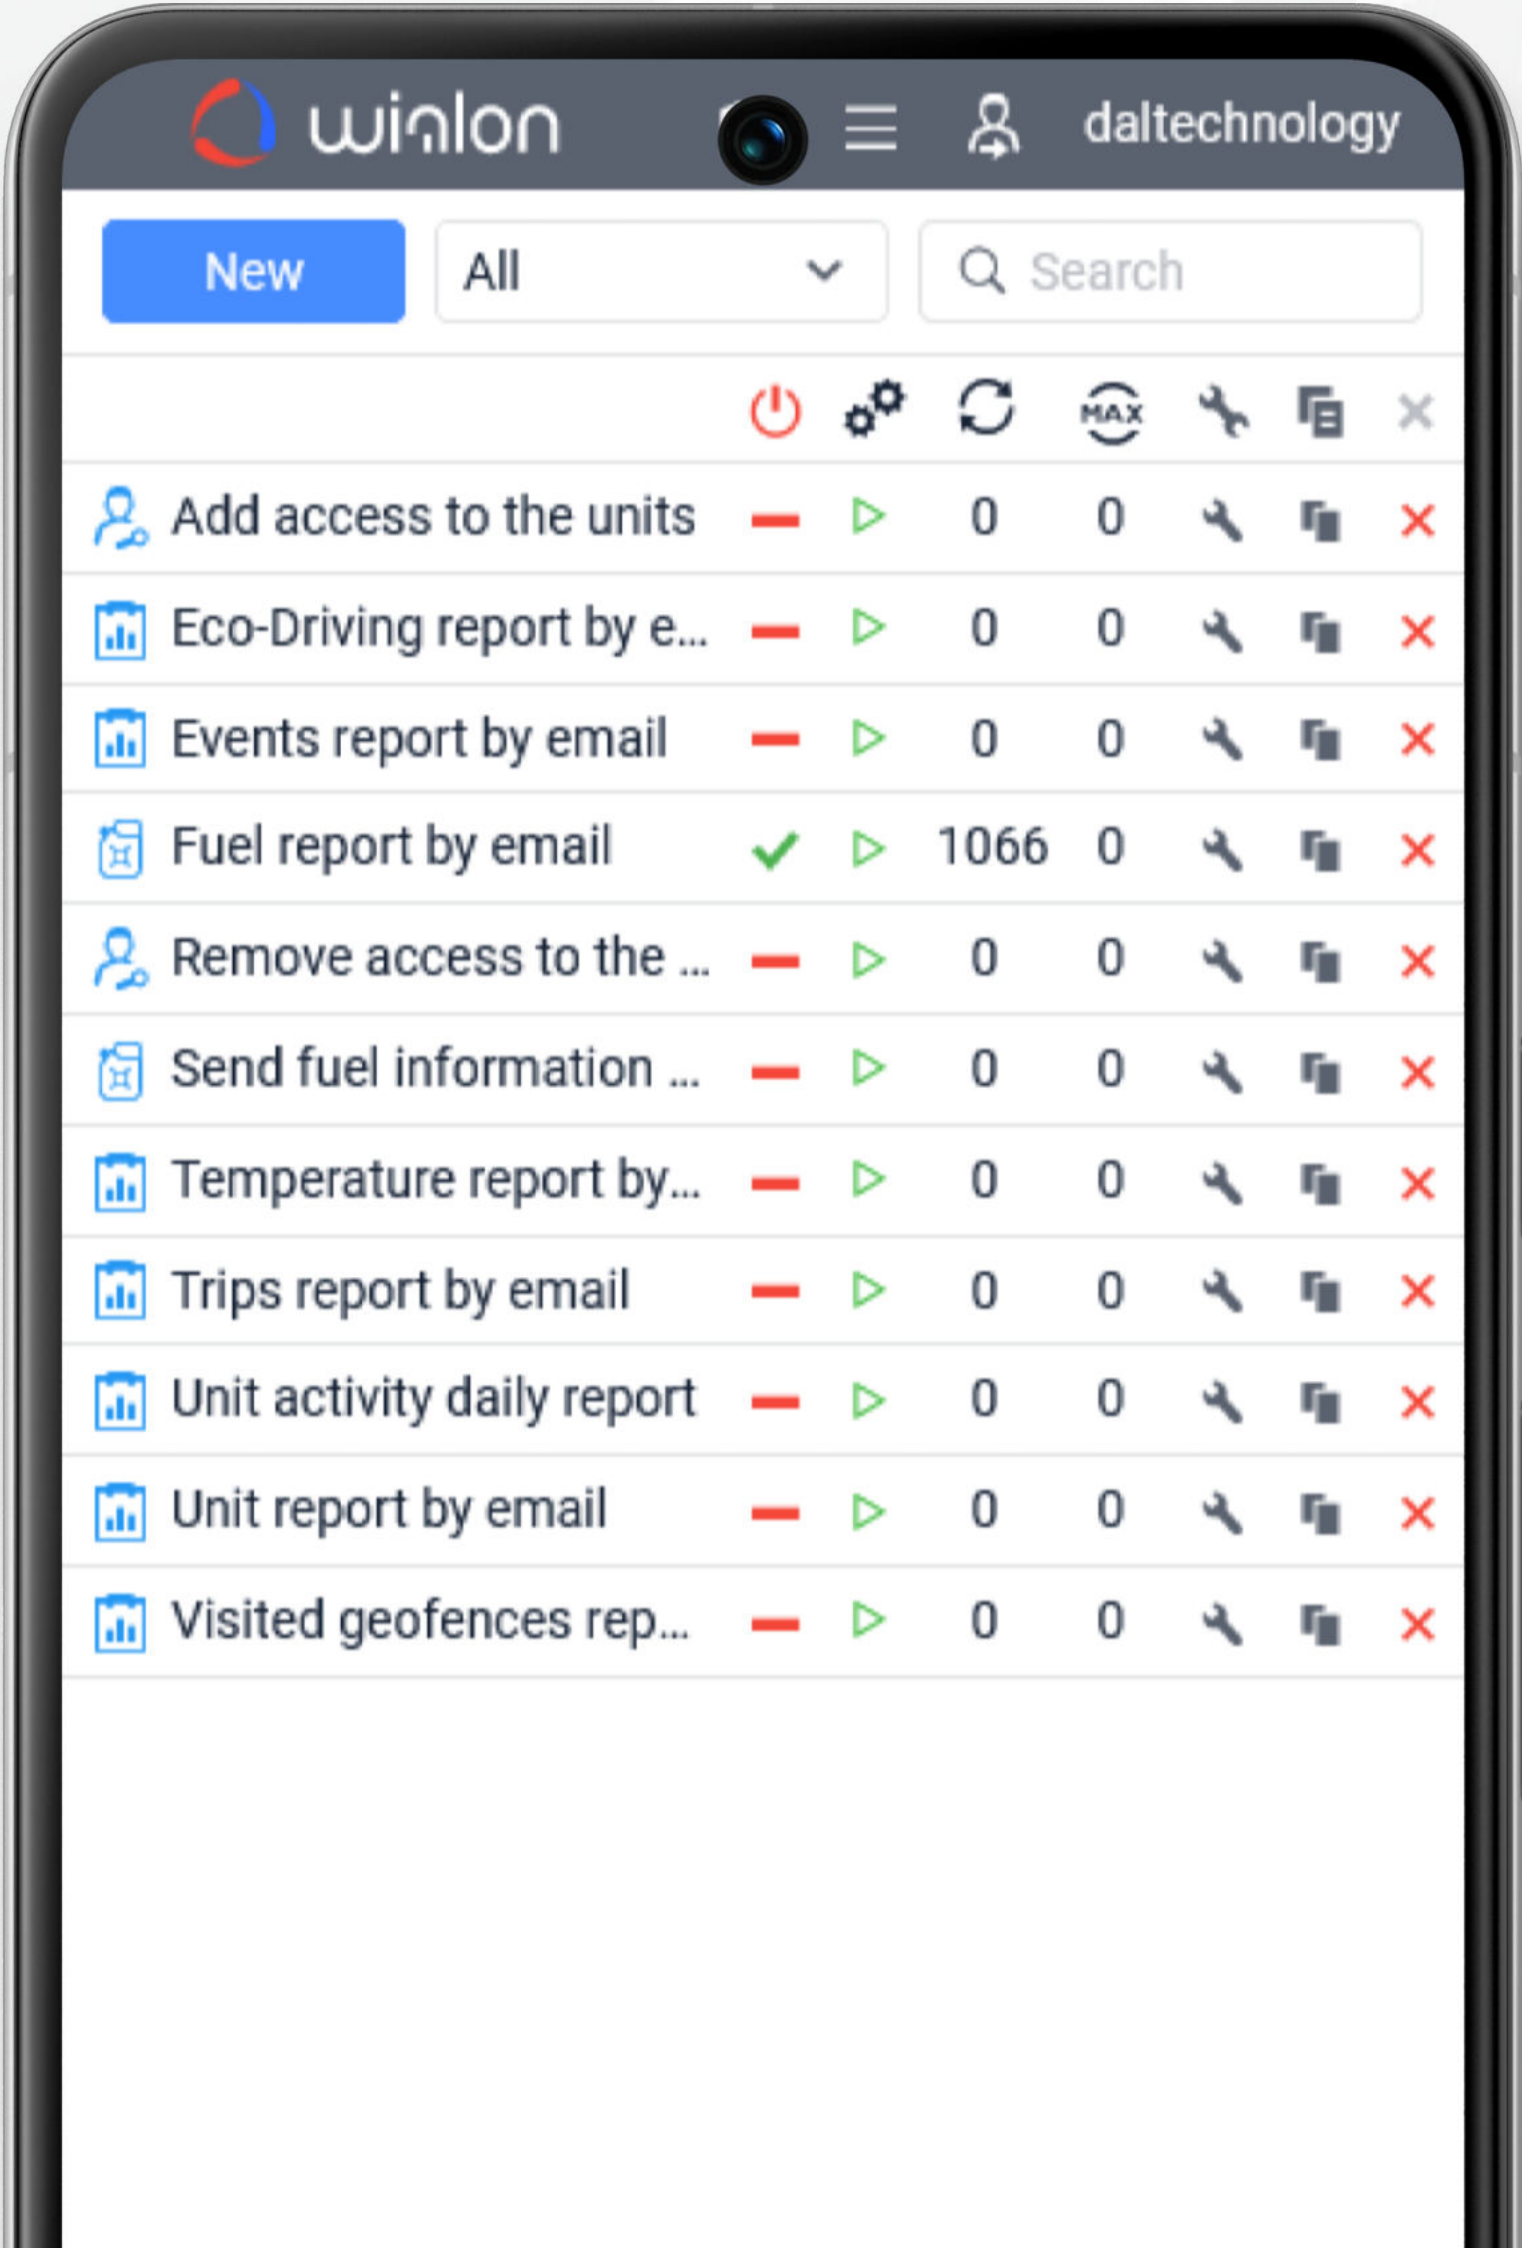

Proactive Alerts Ensure Timely  
Maintenance and Minimize  
Downtime

Prolong Battery Life and  
Optimize Fleet Performance  
with Precision

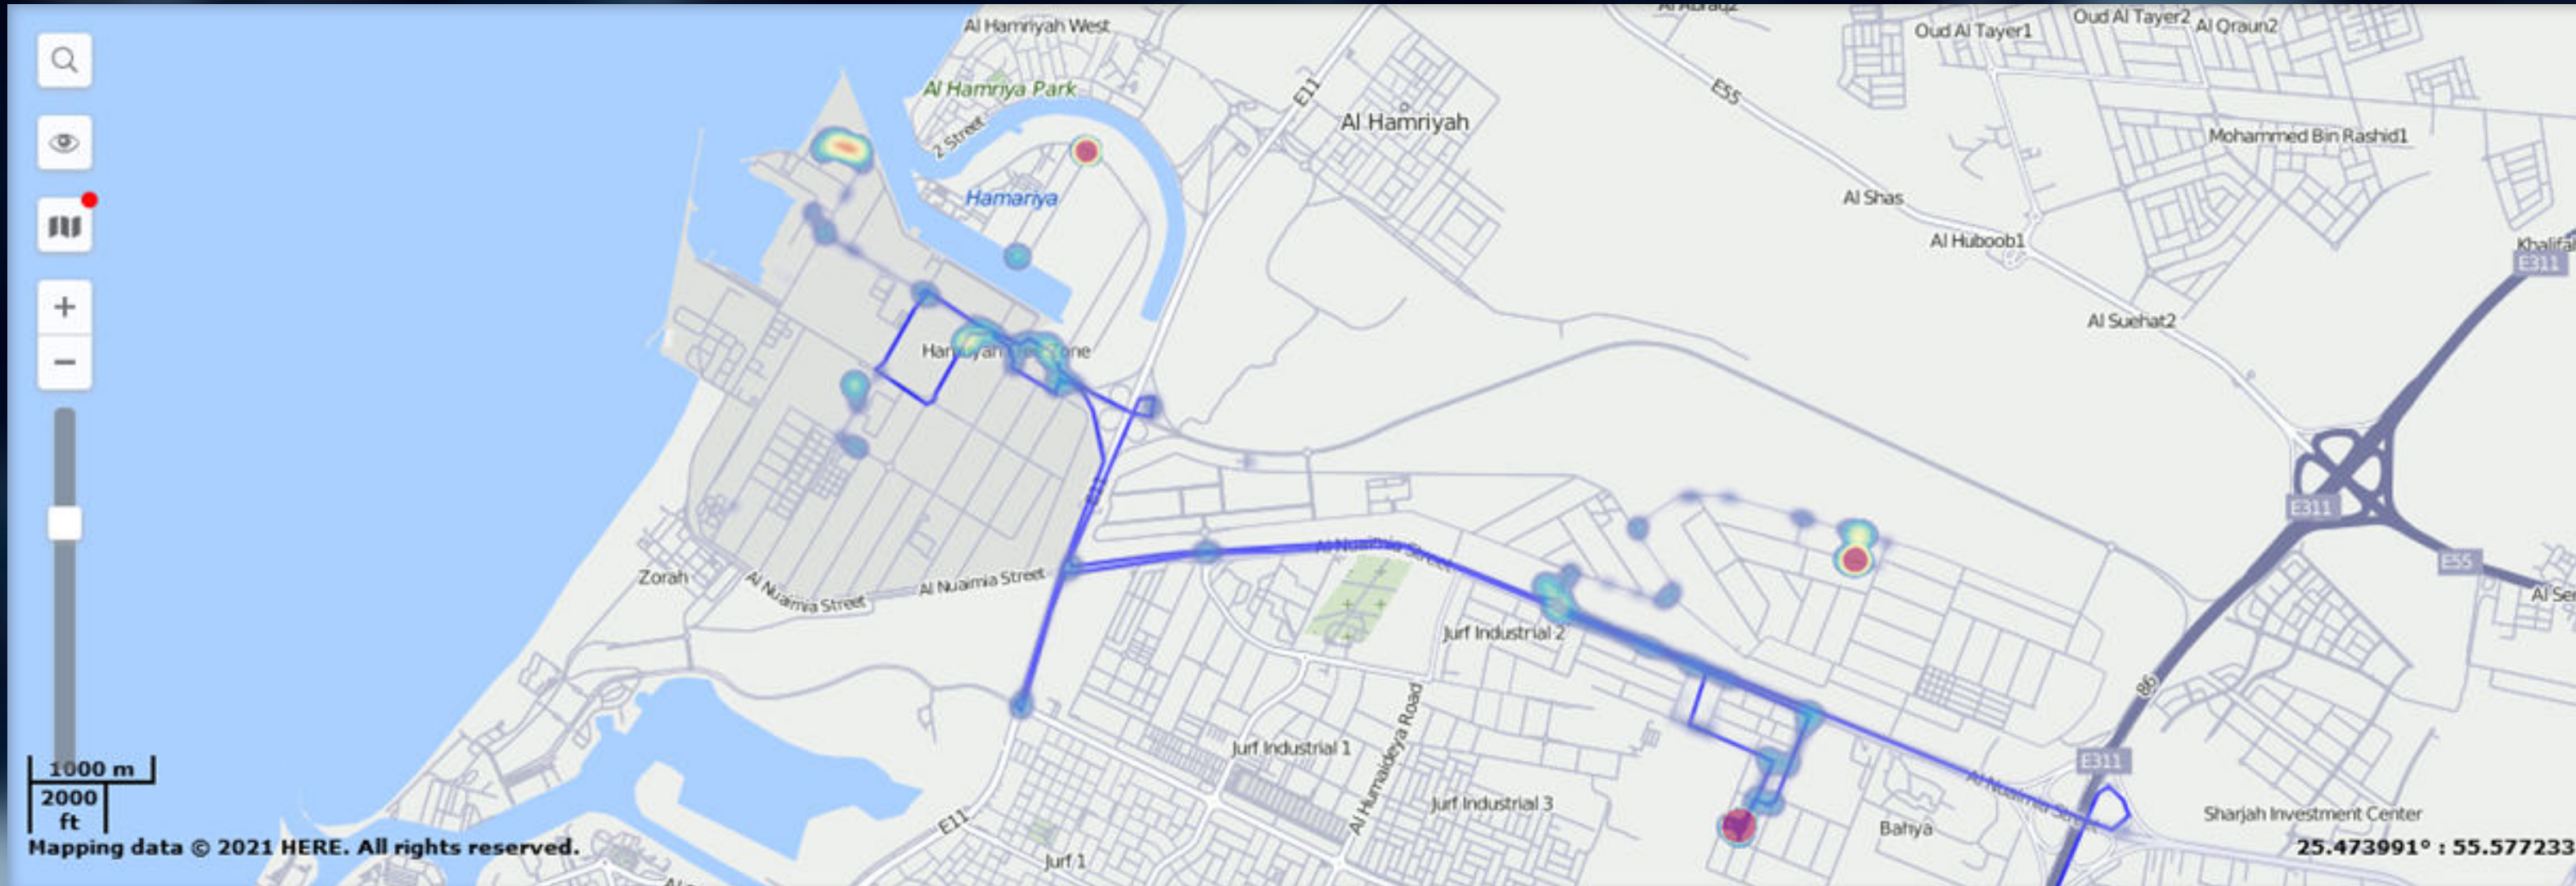

# Remote Cart Deactivation

Remotely render carts inactive  
in real-time for security or  
emergency scenarios. over the  
entire fleet from anywhere

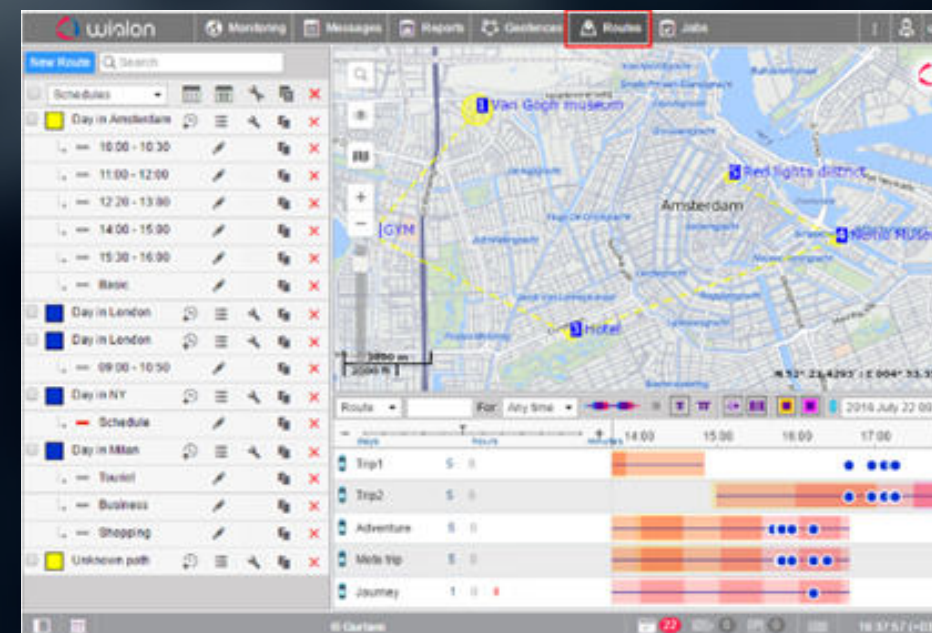

# Real-time Location Data and Analysis

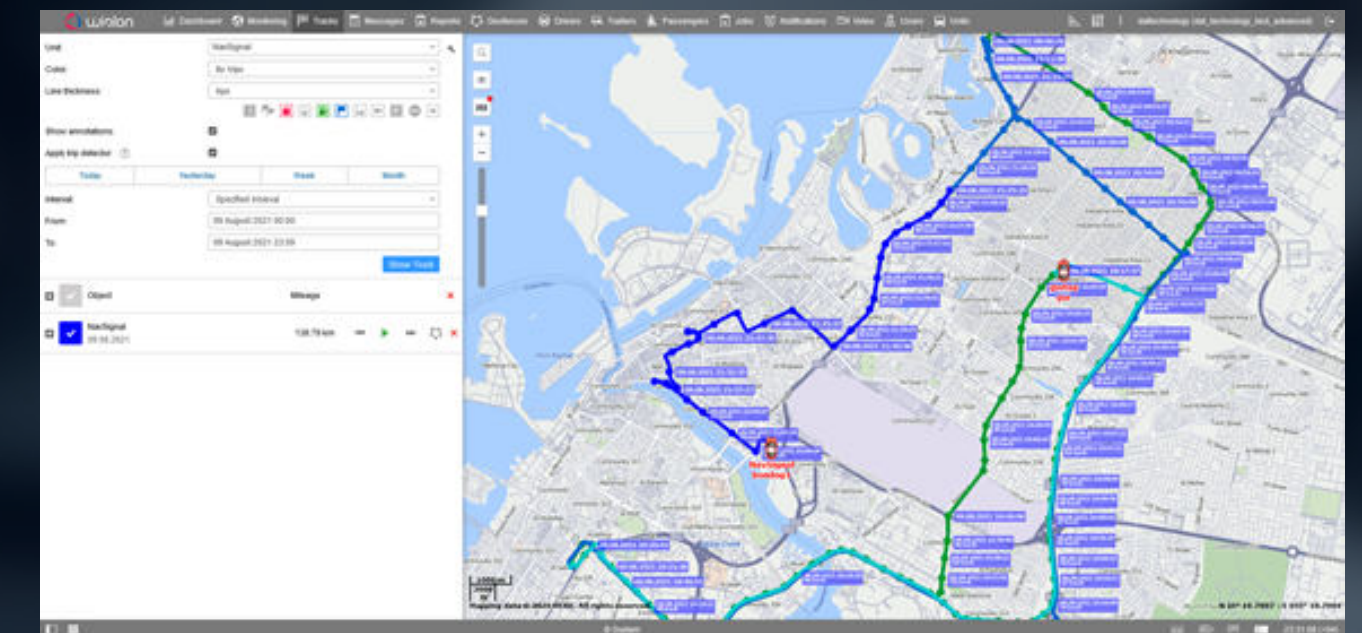

Heatmap of cart traffic showing hotspots

Unit	Status	Count	Alerts	Actions
Bind trailer	✓	2	2370	1
Bus	✗	3	4198	1
Bus M	✗	2	6317	1
Driver	✗	3	6316	1
Connection loss	✓	2	0	1
Connection loss	✗	3316	1	1
Speed limit	✗	3	2	1
Parameter	✗	3388	1	1
Fuel fillings	✗	3	1	1
Fuel theft	✓	2	2370	1

Unit activity notifications, delivered via email or SMS, can also be displayed online through pop-up windows

Smarter operational decisions leading to heightened course efficiency and player experience

Utilize cart traffic data for refined course management strategies

**Personalized  
experience as  
each golfer has  
a dedicated  
cart**

**Time-based  
access control  
for rentals,  
tournaments,  
or VIP use**

## **Seamless and Scalable Integration**

Designed for smooth deployment  
within existing golf course operational  
frameworks

Adaptable to future expansions and  
technological enhancements

# Investment and Projected ROI

Detailed analysis of implementation costs versus potential returns

Heightened  
Operational Efficiency

Anticipated Savings  
in Maintenance

Premium Service  
Capabilities

# Why Choose Our Solution?

More than 10 years in field of fleet management in providing solution

Partners with international fleet management companies and gps solution providers

Tailored Solutions Designed to Fit Your Course's Unique Requirements

**Thank you,,**

**We appreciate your attention and consideration.  
Looking forward to future discussions.**
